Patents 1 - 10 on GMT synchronization. (0.08 seconds)

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)Time synchronization ofdistributed computer telephony communication ...

US Pat. 6370161 - Filed May 20, 1998 - Aspect Communications

The client system clock time represented in GMT (hereinafter referred to as a client ... 300 updates the client GMT by **synchronization** with the master GMT.

...

System and methods for synchronizing datasets when dataset changes may be ...

US Pat. 6449622 - Filed Apr 15, 1999 - Starfish Software, Inc.

Typically, datasets involved in **synchronization** can be assumed to support ... time such as time according to the **synchronization** system's own clock or GMT.

...

System and methods for communicating between multiple devices for ...

US Pat. 6487560 - Filed May 13, 1999 - Starfish Software, Inc.

Typically, datasets involved in **synchronization** can be assumed to support ... time such as time according to the **synchronization** system's own clock or GMT.

...

System and methods for synchronizing datasets in a communication environment ...

US Pat. 6460051 - Filed Apr 9, 1999 - Starfish Software, Inc.

25 26 10 15 25 **synchronization**, or the like, the clocks on the datasets' ... time such as time according to the **synchronization** system's own clock or GMT.

...

System and methods for exchanging messages between a client and a server for ...

US Pat. 6535892 - Filed May 13, 2002 - Starfish Software, Inc.

Synchronization schemes according to embodiments of the present invention ... convert- 60 ible into GMT) timestamps for the core's records and operations. ...System and methods for synchronizing two or more datasets

US Pat. 6295541 - Filed Aug 18, 1998 - Starfish Software, Inc.

Typically, 25 datasets involved in **synchronization** can be assumed to support a

... to a 40 common time, for example a common Greenwich Mean Time (GMT). ...

System application techniques using time **synchronization**

US Pat. 6370159 - Filed Jul 22, 1998 - Agilent Technologies, Inc.

8 illustrates clock **synchronization** in a data acquisition and control ... time such as UTC time which was formerly known as Greenwich Mean Time (GMT). ...

In-vehicle clock **synchronization** with local time

US Pat. 7190946 - Filed Dec 5, 2002 - General Motors Corporation

... a vehicle uses Greenwich Mean Time (GMT) data broadcast from a global positioning ... The clock **synchronization** based on time information messages may ...

Distributed control system architecture based on synchronized clocks

US Pat. 6654356 - Filed Oct 29, 1998 - Agilent Technologies, Inc.

25 The **synchronization** of control functionality in the distributed system time such as UTC time which was formerly known as Greenwich Mean Time (GMT). ...

System and methods for synchronizing datasets using cooperation among ...

US Pat. 6401104 - Filed Jul 3, 1999 - Starfish Software, Inc.

For **synchronization**, a correspondence 5 is typically established between ... into a common time zone (eg, GMT, Greenwich Mean Time) for mutual comparison. ...
